O. Everts, Supt. Braden & Burford, Steam Lith, Ind^s. Edw. May, Architect.

INDIANA HOSPITAL FOR INSANE, DEPARTMENT FOR WOMEN

INDIANAPOLIS.

Edwin May, Architect, Office 51 & 52 Fletcher & Sharpe's Building.

FIRE-PROOF BUILDINGS,

Patent January 28, 1869; April 13, 1869; May 4, 1869; June 28, 1870.

BY

EDWIN MAY.

This invention is practical throughout, and all the materials are at hand in every community to do the work. The same workmen that have been employed in erecting combustible, can build fire-proof buildings for less than ten per cent. additional cost over the present insecure method, and in most cases not to exceed five per cent.

The following public buildings, among others, have adopted the improvements:

Public Library, Cincinnati, Ohio; State Sentinel Building, Indianapolis, Ind.; National Bank, Lafayette, Ind.; Sheriff's residence, Logansport, Ind.; County Prison, Lafayette, Ind.; County Buildings, Winamac, Ind.; County Court House, Chicago, Illinois; County Buildings, Warren, Ohio; Court House, Williamsport, Ind.; St. Louis Republican, St. Louis, Mo.; Lake Side Publishing Company, Chicago, Illinois; County Buildings, Covington, Ind.; Court House, Vincennes, Knox County, Ind; County Prison, Cold Water, Branch County, Michigan; Fletcher & Sharpe's Bank Block, Indianapolis: Hospital for Insane, Department for Women, Indianapolis.

Address, EDWIN MAY, *Indianapolis, Ind.*,

OFFICE No. 51 and 52 Fletcher & Sharpe's Block, Indianapolis, Ind.

PATENT JAIL.

I have invented and patented "Improvements in the construction of Prisons," which will successfully obviate all necessarily dangerous contact of the jailor with those in charge, and which, in sundry other respects, confers upon the jailor the absolute control over the actions of his prisoners.

In my arrangement the jailor need never come in contact with the prisoner. There is always a grating of iron between the keeper and the confined. They are under his control and at his command all the time, without the risk of direct communication, the danger of which is known to all who have had the charge of prisons.

Eash cell is fastened, and, by a counter movement, opened separately from the other, and any one cell can be locked or unlocked from without the corridor. Rooms for female prisoners, insane persons and hospital patients are made perfectly safe, and together with the residence of sheriff completely fire-proof;

The patents for "Improvements in the construction of Prisons" was granted to EDWIN MAY, October 4, 1859; May 29, 1860; June 28, 1870, and December 27, 1870. Patent of 1859 extended October 4, 1874.

SAW AND FILE-PROOF PRISON GRATING.

PATENDED MAY 9, 1871.

The advantage of this grating is the perfect security offered over the old method of common iron window grates; however large the bars, they could be easily sawed off, and the larger the bars the more obstruction to light and ventilation. This grating can be used for prison doors and corridor partitions. For further particulars,

Address,

EDWIN MAY,

OFFICE NO, 51 and 52 Fletcher & Sharpe's Block, Indianapolis, Ind.

R. L. POLK & CO.

INTRODUCTORY.

The Twenty-third Volume of the City Directory, being the first issued by the present publishers, is herewith offered to the public in the hope that it will meet with their approval. It will be observed that in its arrangement such changes have been made as in the opinion of the publishers tend to improve the general features of the work, and neither effort nor expense has been spared in making the Directory reliable and satisfactory, From its first inception only employes of extended experience have been engaged, and the utmost care has been taken to obtain correct and reliable information. In each succeeding edition continued improvement will be aimed at by the publishers, one of whom has recently removed to the city and will make it his future home. At the office of the Evening News, which is centrally located, and always accessible, the publishers have placed a file of directories of the principal cities in the United States and Canada, for the use of their patrons and strangers visiting the city.

We give the following as authentic figures for the present and three former years, and find that by actual count the directory of 1875 contains 27,023.
1876 " 27,917.
1877 " 27,330.
1878 " 31,000.

When we consider that our average estimate of population is at the rate of 3¼ to each name contained in the Directory, and that these names include only heads of families, business names and employes over 18 years of age, while in other large cities, such as New York, Chicago, St Louis, etc., they approximate five, three and one-half and four and one-quarter respectively to each name, we think we are more modest than otherwise in claiming a population at our going to press of fully 100,750. In taking as a basis for population our average at 3¼ per name, we find that we are as a rule, rather under than over the estimate as derived from other sources. For instance the directory of 1870 contains 12,519 names, which by our method of calculating would give a population of 40,686, while the city census of that year gives it at 48,244—a difference of over 7,500. We observe a similar difference in other cities, and think that were we to take 3½ instead of 3¼ as our basis, we would not even then be overrating the actual population.

It is a notable fact that in a season of general depression this city has escaped many of the embarrassments which have so seriously crippled other communities, and has enjoyed quite a full share of general prosperity. It has been particularly noticeable, too, that many dwellings which were marked as vacant when the first canvass was made were occupied by people coming in from other cities and States, before the second visit, and as will appear from the increased number of names in this edition of the Directory as well as from the school enumeration that there has been a substantial and gratifying increase of population. The city has been very fortunate in the extent of new and substantial enterprises which have been undertaken and completed within the year. The Belt Railroad, Stock Yards and Citizens Gas Company are among the most important, and their construction has furnished profitable employment to a very large number of our citizens from early spring to mid-winter.

INDIANAPOLIS OF TO-DAY.

Few cities can claim such advantages of location, of general topography, and facilities for communication and for the transaction of commercial business as Indianapolis. The largest inland city in the United States it is peculiarly the representative of the new era of commerce which ignores the tortuous water courses and moves in direct lines to its destination. It lies central in the country, not only in geographical position, but in its

relation to the varied natural resources, and agricultural production. Its railway system diverging in all directions connects eighty-six of the ninety-two counties of the State with their capital and the traffic of every section North, East, South and West, rolls over its tracks in the cars of every standard gauge railroad of the United States and the Canadian provinces. Every through freight line has an office here, and there is sharp competition between at least three roads or freight lines in every direction. The grain of the West, the cotton and tobacco of the South and Southwest, the cattle and hogs of the West and Southwest, the fruits and ores of the Pacific Coast and of the Territories, the importations and manufactures of the East concentrate here, and all are often represented in the single train. The growth of the city under such remarkably favoring conditions has naturally been very rapid, and the territory which but a half century since was covered with dense forest, is now occupied by a thriving capital with its population of a hundred thousand souls, surrounded on every hand by enterprising cities and towns, each the centre of a fertile agricultural district or of manufacturing and mining industries, often of all combined.

While the city is so nearly level as to permit the street railways to connect its every part without an appreciable grade, it is sufficiently undulating to afford perfect drainage, emptying into the White river which courses along its Western boundary. The surface soil, of high fertility, is underlaid at varying depths of from four to fifteen feet with thick veins of gravel which of itself affords an excellent natural drainage. The streets are very wide and in residence localities are bordered with shade trees. The general plan of the city is rectangular, the streets running towards the cardinal points of the compass, with four broad avenues diverging from a common centre diagonally to the general directions. The new Court House, completed within the past year, built of Indiana lime stone with Scotch granite ornaments, and costing nearly two million dollars, is one of the finest public buildings in the West, and furnishes ample accommodation to all the county and city courts and offices. The Postoffice building, built of granite, is centrally located and accommodates all the United States offices and courts. The old State House has been demolished within the year to give place to a new building which by Legislative enactment is to cost not exceeding two million dollars. The Hospital for the Insane, the Institute for the Blind, the Deaf and Dumb Institute and the Women's Reformatory are among the State institutions located within the city, or in its immediate vicinity.

THE CITY GOVERNMENT.

Until within the present year the city has been governed by a Common Council, composed of twenty-six members, two from each of the thirteen wards, with the Mayor executive, and the various municipal boards and standing committees subject to the Council. By an act of the Legislature, approved March 5th, 1877, it was provided that the wards should be divided so as to contain as nearly as practicable 800 voters, each to be entitled to one councilman to be elected annually on the first Tuesday in May. The city is also divided into five aldermanic districts, formed of contiguous wards, one freeholder to be elected annually from each district to serve for two years in the Board of Aldermen. The said Board, composed of ten members, has concurrent jurisdiction with the Common Council in all matters except in regard to the qualifications of its members and its own rules. No ordinance, order or resolution, can become operative until passed by both of said bodies.

The several boards are elected in joint convention of the two bodies, and have supervision of their departments of municipal affairs as follows:

THE FIRE BOARD

Is composed of three members, with the Chief of the Fire Department as an ex-officio member. Except the Chief and Assistant Chief of the Department, who are elected in the same manner as the members of the Board, (but are to act under its supervision) all other officers and members are appointed by the Fire Board. It has charge of all matters relating to the Fire Department, adopts the rules and regulations governing it, and may order repairs when the expenditure does not exceed $500. Where larger expenditures are necessary they must first receive the approval of the Board of Aldermen and Council.

THE HOSPITAL BOARD

Consists of three members elected annually, who serve without compensation and meet for the transaction of business once a month. It is charged with the management of the City Hospital including the selection of the medical staff, (who also serve without compensation) and the officers and employes necessary; the purchase of supplies, medicines, etc. It makes monthly reports to Council of all admissions and discharges, and of

all receipts and expenditures. Patients able to pay are charged not exceeding five dollars per week for treatment.

BOARD OF POLICE.

This board is also composed of three members with the Mayor as an advisory member, but having no right to vote. It has the power to appoint a Chief of Police and such other officers and members of the force as may be provided by ordinance, and to enforce existing rules and regulations. It is also a part of its duty to report to the Council such additional rules as may be necessary to secure efficiency in the police system.

THE BOARD OF HEALTH

Is composed of three Commissioners who have the power to take necessary measures to prevent contagious and other diseases and the spread of the same, and the Mayor, Marshal, and all other officers, are required to aid them in discharging their duties. They also provide temporary hospitals, and make any preparations necessary in anticipation or in consequence of the prevalence of any infectious or contagious diseases, and report to Council for approval. They are required to make publication of and enforce such regulations and by-laws as may be or are necessary to be observed by residents of and visitors to the city. They are also clothed with police powers, and may examine any premises where the existence of disease may be suspected; and they may order vaccination, if deemed necessary. They are also required to keep records of mortality, and must issue the burial permits upon receiving the certificate of death by the physicians in attendance before the undertaker can make the interment.

The health of the city has been uniformly good throughout the year 1877, and statistics comparing the various cities of the country and of the world, show that Indianapolis occupies not lower than a third or fourth position as to its average death rate. The record at the health office shows 1,362 deaths during the year. Of these 146 occurred in January; February, 140; March, 148; April, 89; May, 121; June, 117; July, 157; August, 139; September, 124; October, 133; November, 99; December, 118. Of the total 709 were under 5 years of age and 212 were over 50 years old. Two were noted cases of longevity, Jesse Young, colored, aged 100, and Nancy Malott, white, aged 99 years.

THE BOARD OF CITY COMMISSIONERS.

This board is organized in accordance with a State law, and is composed of five resident freeholders. It is charged with the duty to hear and determine all matters appertaining to the acquisition, opening, laying out, altering and straightening of streets, alleys and highways within the city, and the taking of lands for sewerage purposes. They must assess benefits and damages resulting from any changes or improvements in the above regard, and determine the proportion to be paid out of the public fund. They are required to make reports of their action in detail to the Common Council by whom it must be affirmed before the proposedwork shall be undertaken.

THE BOARD OF PUBLIC IMPROVEMENTS.

This board is created by a recent ordinance and consists of three members elected annually—two from the Common Council and one from the Board of Aldermen. They have general supervision and control of the repairing of all the streets, alleys, culverts and bridges of the city, the cleaning and scraping of all streets, alleys and sewers, the employment of all laborers and teams, and fixing the pay for the same. They must approve all bills after they have been certified by the Street Commissioner before any warrant is drawn for their payment. They are required to report to Council once a month in reference to expenditures and are also authorized to report such recommendations for any public improvement as they may deem necessary.

THE MAYOR'S COURT.

All offenders against the ordinances of the city are brought before the Mayor's Court, which also has the same jurisdiction in State cases as a Justice of the Peace.

CITY FINANCES.

The assessed valuation of property for 1877, was as follows:

The value of lots	$27,031,100
The value of improvements	16,510,500
The value of personal property	11,825,645
Total valuation	$55,367,245

The general tax levy, at the rate of $1.40 on $100, amounted to $620,113.14, to which add the poll tax, $6,335.50, and it gives the total tax levy $626,448.64.

STATEMENT OF CITY DEBT.

The total debt May 12, 1876, amounted to $1,609,765.57, less cash in treasury 40,437.57 —net debt balance, $1,569,334.00. The bonded debt May 12, 1877, was $1,414,500.00, and orders outstanding, $201,301.37—a total of $1,615,801.37. Deducting cash on hand, $278,248.30, leaves a balance of debt, $1,337,553 07, showing a reduction of the debt within the year of $231,780.93. Since the above date a temporary loan of $300,000, to be paid from proceeds of next tax collected has been made, and $500,000 in bonds—which are not properly a debt of the city—have been issued to the Belt Railway Company, subject to indemnity and fully secured. These added to the net balance as above, give the total liabilities of the city on the 1st of January, 1878, $2,139,553.07.

THE CITY WATER WORKS.

These works are owned and operated by a stock company, having a capital of $500,000. The pumping works—the Holly system—located on the banks of White river, are very complete and are adapted to use both steam and water power, the latter being derived from the canal. To secure greater capacity, new and powerful engines were put in in 1875. With the old engines they afford 2,500 horse power, and have a pumping capacity of 18,000,000 gallons in 24 hours About 43 miles of mains are in use, supplying 472 fire hydrants and 23 public drinking fountains, for which the city pays $50 each. There are 1,808 private attachments. The rate of charges to private consumers is established by city ordinance, and is very moderate.

THE WHOLESALE TRADE.

A recent canvass of the city shows that there are 73 firms engaged in exclusively wholesale trade, representing every principal line, and selling an aggregate for the year 1877, of over $14,000,000, varying in amounts for each firm from $100,000 to $50,000. This total, which is about $700,000 greater than in 1876, represents at least 20 per cent. increase in quantity of goods sold, there having been a depreciation in price varying from 5 to 25 per cent. during the year. The wholesale houses of this city are favorably known for their conservatism and consequent stability, while their enterprise is commanding trade from the large territory naturally tributary to this city through its superior railway facilities.

THE RETAIL TRADE.

Notwithstanding the general complaint of hard times, the retail trade has become more healthy and normal in its conditions than for a number of years past. The volume of trade has not been any larger in value owing to the lower prices, but there have been more goods sold. In the single line of dry goods the sales reach to fully $2,000,000, and this is a fair index as to other branches.

MANUFACTURES.

The tendency to exaggeration renders statistical statements as usually compiled unreliable, and deprives them of the value they should have for purposes of comparison—one year with another. While but few new enterprises have been undertaken anywhere within the past two years, Indianapolis can show its full share and quite an average as to prosperity for all its establishments Its close proximity to the great Indiana coal fields, which permits the delivery of fuel at the furnace doors at from $1.25 to $2.50 per ton, and its advantages for obtaining all manufacturing and subsistence supplies, with the unexcelled facilities for the distribution of products, have induced the location of many important industries here. The manufactories and shops are now giving employment to nearly or quite 8,000 persons, and furnish support to almost one-half the entire population. The production in nearly all branches has exceeded or equaled in value that of 1876, though at prices fully ten per cent. lower. The aggregate value of products reaches fully $18,000,000 for the year, including about $6,000,000 of pork products put up by the extensive packing houses, and $1,250,000 of flour products from our own mills. The manufactories include 2 rolling mills, and 22 other establishments manufacturing iron alone; 5 manufactures combining wood and iron which employ together 645 men and produce to value of $900,000, with several other small concerns; 34 manufactures of wood alone; glue works, soap works, 2 varnish factories, 2 woolen mills, a starch factory, a hominy mill, 5 pork houses, 10 flouring mills, 7 planing mills, 10 or 12 saw mills, and many other of minor importance.

THE LUMBER TRADE.

This is one of the most important interests in the city, it being the centre of the trade in walnut and other hard lumbers for which Indiana is noted. A single mill produces

5,000,000 feet per annum, and employs 60 men and boys. There are 13 firms engaged in the trade, several of them operating very complete saw mills and employing in the aggregate a very large capital. The sales amount to 25,000,000 feet annually of a total value not less than $1,000,000 Several establishments are engaged in sawing small dimension stuff for eastern manufactories.

THE RAILWAYS.

As has already been stated the railway system converging here is more comprehensive in its extent and its variety of traffic, than any other in the United States. It comprises eleven important roads, nearly all having this city as a terminus. The list will suggest in the names of the lines the relative importance of Indianapolis, and its central location as to other principal cities of the West. Commencing on the North and passing around the city by the East, the roads and the number of miles operated by each, is as follows:

Indianapolis, Peru & Chicago	161	Miles.
Cleveland, Columbus, Cincinnati & Indianapolis (Bee Line)	471	"
Pittsburgh, Cincinnati & St. Louis	956	"
Cincinnati, Hamilton & Indianapolis	123	"
Indianapolis, Cincinnati & Lafayette	115	"
Jeffersonville, Madison & Indianapolis	220	"
Indianapolis & Vincennes	117	"
St. Louis, Vandalia, Terre Haute & Indianapolis (Vandalia Line)	240	"
Indianapolis & St. Louis	263	"
Indianapolis, Bloomington & Western	211	"
Indianapolis, Lafayette & Chicago	203	"
Total	3080	

RAILWAY TRAFFIC.

The total number of freight cars arriving and departing by all lines averages over 630,000 annually, or more than 1,800 per day. Of these 438,650 in 1877, were loaded, averaging fully 11 tons per car—a total of 4,825,150 tons. The extent of the receipts and shipments of leading articles is shown in the following statement compiled from the records at the Board of Trade.

GRAIN AND LIVE STOCK.

ARTICLES.	RECEIVED.	SHIPPED.
Barley, bushels	327,600	291,400
Corn, "	11,745,000	11,288,600
Oats, "	2,107,800	2,163,800
Rye, "	472,000	407,300
Wheat, "	1,965,905	1,473,085
Flour, barrels	907,950	1,020,150
Cattle, number	148,642	153,153
Sheep, "	51,066	87,448
Hogs, "	480,923	139,890

The receipts estimated at the average prices of the year represent a value of $23,515,000. This is but a small proportion of the total traffic, as will be seen in the following

TABLE OF MISCELLANEOUS ARTICLES.

ARTICLES.	RECEIVED.	SHIPPED
Bran, tons	16,280	16,300
Coal, tons	353,664	110,963
Cooperage, cars	320	93
Cotton, bales	123,280	122,400
Cornmeal, barrels	157,800	151,000
Cement, barrels	69,310	33,160
Fertilizers, tons	2,028	3,828
Hay, tons	5,196	5,346
Hides, tons	9,070	10,040
Highwines, barrels	56,450	55,940
Horses and mules, number	9,707	10,937
Ice, tons	18,068	3,932
Iron, tons	42,710	39,594
Lard, tierces	25,410	56,820
Lath, cars	161	63
Lumber, feet	61,296,000	43,572,000
Logs, cars	4,036	59
Merchandise, cars	68,393	62,691
Oil, barrels	62,000	111,000
Provisions, pounds	27,502,000	97,240,000
Salt, barrels	91,610	31,330
Shingles, cars	371	225
Starch, barrels	30,300	53,200
Staves, cars	3,288	2,048

ARTICLES.	RECEIVED.	SHIPPED.
Stone, cars	1,735	635
Tallow, barrels	10,400	6,300
Tobacco, hogsheads	39 552	39,429
Whisky, barrels	13,400	9,000
Wool, tons	3,238	2,832
Miscellaneous, cars	24,830	10,004
Total No. of cars loaded	249,390	169,260

Estimating upon a very low basis, the above receipts represent a value of more than $95,000,000.

THE GRAIN TRADE.

The tables of grain receipts and shipments includes the through shipments as well as the grain handled here by dealers. The proportion of the latter has very greatly increased within the past three years, and including the 203,000 barrels of flour manufactured from over one million bushels of wheat, not less than 14,000,000 bushels were brought here for shipment and local consumption. Of this there were nearly or quite 10,000,000 bushels of corn, in which grain Indianapolis has become a principal market.

THE PROVISION TRADE.

The continuous shrinkage of values amounting within the year to fully 35 per cent., has not only left no margin of profit, but has involved loss to packers here as elsewhere. Our packing firms are, however, substantially capitalized and are prepared to average their losses for the year with the gains of other years. The number of hogs slaughtered here during the year ending October 31st, 1877, was but little less than in previous years, and aggregated 503,198, of an average weight of about 215 pounds, placing Indianapolis in the fourth rank as a packing point.

THE BANKS.

As with the wholesale trade, the banking of Indianapolis has been conducted with marked prudence, and Indianapolis has suffered none of the embarrassments to business which have followed the large number of bank failures elsewhere. The banking capital aggregates for six National banks and nine private banks, $4,391,439, and the surplus reported for the National banks amounts to $677,247. The average deposits during 1877 in the six National banks was $3,048,544.16, and in the nine private banks and two savings banks was $3,937,400, a total of $6,985,944 16.

The clearances for the year 1877, were 56,966,650 in comparison with 58,500,000 in 1876. All the banks in the city, except the Indianapolis Savings bank, are members of the Clearing House association.

THE PUBLIC SCHOOLS.

The schools of Indianapolis not only occupy high rank in the State, but the exhibit prepared for the Centennial exhibition demonstrated their equality with the best and superiority to most of the schools represented there The following statistics, compiled from the Annual Report of the Superintendent, Prof. Geo. P. Brown, are considered worthy of a place here.

The number of children and youth between six and twenty-one years of age in 1870, was	13,082
In 1877, it was	22,806
The whole number between the ages of 6 and 16, inclusive, was, in 1877	17,411
The whole number enrolled in public schools	12,093
The whole number enrolled in night schools	1,321
The number attending private and parochial schools	1,340
The entire number receiving instruction in the various institutions during some portion of the year was	14,754
Of this number there are over 16 years of age	750
The number in the city between 6 and 16 who do not attend any school is	2,657
Number of school houses owned by the city	22
Number of school houses rented by the city	1
Number of school rooms used	188
Number of recitation rooms and offices	32
Number of seats for pupils	10,587

The buildings are heated: 2 by steam, 4 by furnaces, 17 by stoves.

The following comparative table for 10 years shows the rapid growth of the city and of its public schools:

	1877.	1876.	1875.	1874.	1873.	1872.	1871.	1870.	1869.	1868.
Number of teachers	205	189	178	151	128	112	102	92	78	62
Pupils enrolled	13,679	12,315	11,013	9,351	3,178	6,895	6,560	5,795	5,160	4,949
Average number belonging	8,605	8,307	7,864	6,756	5,728	4,676	4,468	3,969	3,549	3,252
Average daily attendance	7,920	7,686	7,210	6,283	5,306	4,379	4,205	3,759	3,375	3,099
Per cent of attendance	92	92	94	94	92.6	93.6	94.4	94.7	94.9	95

Of 12,093 pupils registered in 1877, there were

In High School ..... 572 or 4¾ per cent.
In Normal School 38
In Grammar Schools ..... 3,062 or 25½ per cent.
In Primary School ..... 8.426 or 69¼ per cent.

The average number belonging at any time during the year was: In High Schoo 459; in District Schools, 8,146. Total, 8,605.

The average number in attendance was: In High School, 435; in District Schools 7,485. Total, 7,920

Percentage of attendance on total number belonging, 92; percentage of attendance on entire population of city, 70. Average number of pupils in attendance to each teacher: In High School. 31.07; in District Schools excluding "D Primary," 58.35; in D Primary grade, 100.

Divided by ages the number of pupils is recorded as follows: 6 years old, 965; 7 years old, 1,456; 8 years old, 1,470; 9 years old, 1,509; 10 years old, 1,433; 11 years old, 1,191; 12 years old, 1,115; 13 years old, 865; 14 years old, 736; 15 years old, 588; 16 years old and over, 732.

Average age of girls, 10.3 years; average age of boys, 10.2 years.

The occupation of parents is classified as follows: Agents, 647; artists, 59; boarding house and hotel keepers, 157; butchers, 105; clerks, 422; confectioners, 68; draymen and teamsters, 342; farmers and gardeners, 262; day laborers, 2,614; manufacturers, 641; mechanics, 2,508; merchants, 1,340; professionals, 725; public officers, 237; railroaders, 486; saloon keepers, 155; seamstresses, 264; unclassified, 1,060.

The birth place of pupils is as follows:

In Indianapolis	5,324
Indiana outside of Indianapolis	3,144
Western States and Territories	1,187
Southern States	657
Middle States	1,021
New England States	123
North America outside United States	60
Great Britain	103
Ireland	65
Germany	153
Other foreign countries	66
Unknown	149

VALUE OF SCHOOL PROPERTY IN 1877.

Buildings and grounds	$828,944.80
Furniture	30,349.75
Apparatus	3,691.00
Library in High School	1,000.00
Public Library	2,000.00
Total	$915,935.55

COST OF TUITION IN DAY SCHOOLS.

Whole amount paid for tuition	$127,916.00
Cost per pupil on number registered	10.57
Cost per pupil on number belonging	14.87
Cost per pupil in High School	37.22

Entire cost of all the schools for tuition and incidentals	156,838.96
Entire cost including repairs, improvements, new buildings, rent, insurance, etc.	202,933.12

THE UNION RAILROAD TRANSFER AND STOCK YARD CO.

The most important undertaking of the year is the building and equipment of what is known as the Belt railroad, by which all through traffic is transferred around the city without blocking the streets for hours each day as had become necessary through the accumulation of business over the railways in the past few years. The length of the road bed is a little more than twelve miles, of which one-half is double tracked. Including the switches, twenty miles of heavy steel rail have been laid, and the road bed is of the most substantial character. The bridges over White river are of iron and stone abutments, and are double tracked. The road is connected by switches with every line entering the city, except the Indianapolis, Peru & Chicago road, which can transfer, if desirable, over the Bee Line. The equipment is in keeping with the other features mentioned, the switching engines having the capacity to handle from 90 to 125 cars in a single train. The road is transfering over 500 cars per day. It has connections with all the pork houses and all the leading manufactories, and affords unparalleled facilities for the location of manufacturing establishments along its line.

The Union Stock Yard is an important part of the enterprise. It is one of the most complete in its equipments and appointments in the country with shed room, stabling and pens, all under roof and thoroughly under-drained; supplied with feed racks and water troughs in every part, with ample loading and unloading pens and platforms on a level with the car platforms. The four pens already provided and under roof cover eight acres, and have a capacity to accommodate 3,000 head of mules or cattle, and 25,000 hogs. Four others of equal capacity are in course of erection.

A fine brick hotel, with Exchange room, has already been erected, and some fifteen of the offices are occupied by the telegraph, bank and company offices, and by commission firms engaged in the sale of stock. The advantages offered here for the transaction of an extensive live stock business are very many, and the superior facilities now provided will prove a great inducement.

In the foregoing resume we have been careful not to exaggerate in any particular. If fault shall be found it will be because of an under estimate in the few cases where we have not been able to obtain exact figures. Taking the year as a whole, it has shown a decided improvement over 1876. Business has been conducted with extreme caution and with careful regard to established principles, consequently with less loss, if not with so large a margin of profit. Expenses have been reduced to an economic basis, both in the conduct of business and in the family, and the foundations are being laid securely for a substantial prosperity as the times shall improve.

COURTS.

United States Courts of the District of Indiana—The United States is divided into nine Judicial Circuits, in each of which a

Circuit Court is held for each district within each circuit. The act of Congress approved April 10, 1869, provided as follows: "The Circuit Courts in each Circuit shall be held by the Justice of the Supreme Court alloted to the Circuit, or by the Circuit Judge of the Circuit, or by the District Judge of the District, sitting alone, or by the Justice of the Supreme Court and Circuit Judge sitting together, in which case the Justice of the Supreme Court shall preside, or in the absence of either of them by the other (who shall preside,) and the District Judge." The State of Indiana comprises one Judicial District. The courts for the District are held at Indianapolis. The District is attached to the Seventh Judicial Circuit, which comprises the States of Wisconsin, Illinois and Indiana.

The Courts of the District of Indiana are organized as follows:

CIRCUIT COURT.

District No. 2—Frederick A. Rockwell.
District No. 3—Fred Ward.

ATES OF POSTAGE ON FIRST-CLASS MATTER.

On letters, sealed packages, mail-matter wholly or partly in writing, except book manuscript and corrected proofs passing between authors and publishers, and except

local or drop letters, or United States postal cards; all printed matter so marked as to convey any other or further information than is conveyed by the original print, except the correction of mere typographical errors; all matters otherwise chargeable with letter postage, but which is so wrapped or secured that it can not be conveniently examined by postmasters without destroying the wrapper or envelope; all packages containing matter not in itself chargeable with letter postage, but in which is inclosed or concealed any letter, memorandum, or other thing chargeable with letter postage, or upon which is any writing or memorandum; all matter to which no specific rate of postage is assigned; and manuscript for publication in newspapers, magazines, or periodicals, three cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is established, two cents for each half ounce or fraction thereof.

RATES OF POSTAGE ON SECOND-CLASS MATTER.

Mailable matter of this class embraces all newspapers, magazines, and perodicals, exclusively in print, and regularly issued at stated periods from a known office of publication, without addition by writing, mark, or sign, and addressed to regular subscribers, which shall be divided into two classes, and fixes the postage on each as follows:

1. On all newspapers and periodical publications, addressed and mailed as above prescribed, and issued weekly or oftener, two cents a pound or fraction thereof.

2. On all newspapers and periodical publications, addressed and mailed as above prescribed, and issued *less* frequently than once a week, three cents a pound or fraction thereof.

A regular subscriber is a person who has actually paid, or undertaken to pay, a subscription price for a newspaper, magazine, or other periodical, or for whom such payment has been made, or undertaken to be made, by some other person. But, in the latter case, such payment must have been made, or undertaken with the previous consent, or at the previous request of the person to whom such newspaper, magazine, or periodical is sent. A person to whom any such publication is sent, without his consent or request, is not a "regular subscriber" within the meaning of the law, and if there be no evidence of prepayment on the package, double transit rates of postage must be rated up and collected on delivery.

THIRD-CLASS MATTER.

The following articles are mailable at the rate of one cent for every two ounces or fractional part thereof:

Pamphlets, occasional publications, transient newspapers, magazines, books, periodicals, hand-bills, posters, sheet music (printed), prospectuses, maps, proof sheets, regular publications designed primarily for advertising purposes or free circulation, at nominal rates, and corrected proof sheets. All matter of the third-class, not enumerated above, is one cent for each ounce or fraction thereof.

POSTAL CARDS.

The object of the postal card is to facilitate letter correspondence, and provide for the transmission through the mails, at a reduced rate of postage, of short communications, either printed or written in pencil or ink. They may, therefore, be used for orders, invitations, notices, receipts, aknowledgments, price-lists, and other requirements of business and social life; and the matter desired to be conveyed may be either in writing or in print, or partially in both.

In using postal cards, be careful not to write or have anything printed on the side to be used for the address, except the address; also be careful not to paste, gum or attach anything to them. They are unmailable as postal cards when these suggestions are disregarded.

THE FOLLOWING ARTICLES ARE UNMAILABLE.

Packages containing liquids, poisons, glass, explosive chemicals, live animals, sharp pointed instruments, sugar, or any other matter liable to deface or destroy the contents of the mail, or injure the person of any one connected with the service. All letters upon the envelope of which, or postal card upon which obscene, scurrilous, or abusive epithets have written or printed, or disloyal devices printed or engraved, and letters or circulars concerning illegal lotteries, so called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to deceive and defraud the public. Also, all obscene, lewd, or lascivious books, pamphlets, pictures, papers, prints, or other publications of an indecent character.

FORWARDING LETTERS.

Letters may be forwarded without prepayment of postage, if forwarded without being taken from the Postoffice, but if delivered to an authorized person (such as one to whose care they are directed), or hotel to whose care they are sent, having once been beyond the control of the Postoffice Department, they are chargeable with postage on forwarding. Such redirected letters are daily dropped in the letter boxes, and are, under instructions, forwarded to the Dead Letter Office.

LETTERS RETURNED TO WRITERS.

All letters unclaimed, upon which are indorsed the names and addresses of the writers, will be returned whether a specific *request* for such return is indorsed or not—provided the original postage has been prepaid according to law.

MONEY ORDERS

Are issued on all points in the United States at a trifling cost—$15 or under, 10 cents.

On Canada and the Provinces, $10 or under, 20 cents.

On all points in Great Britain and Ireland, $10 or under, 25 cents.

On all points in Germany, $5 or under, 15 cents.

On all points in Switzerland, $10 or under, 25 cents, and through Switzerland on France, Belgium, Italy and the Netherlands.

No limit to the amount of remittances to foreign countries. In the United States three orders of $50 each is the limit for one remittance per day.

STAMPED ENVELOPES.

The following is a list of stamped envelopes most commonly used, with the size, color and price per 1,000.

No. 1, 3 cent, 1st quality, white, note size, $32.40.

No. 2, 2 cent, 1st quality, white or amber, medium size, $22.60.

No. 4½, 2 cent, 2d quality, cream, business size, $22.80.

No. 4½, 3 cent, business size, 1st, 2d and 3d quality, $33.00, $32.80, $32.40.

No. 3, 3 cent, medium size, 1st, 2d and 3d quality, $32.80, $32.60, $32.20.

No. 5, 3 cent, large size, 1st, 2d and 3d quality, $33.20, $33.00, $32.60.

No. 4, 1 cent, ungummed, for circulars, medium size. $11.80.

No. 6, 1 cent, ungummed, for circulars, large size, $12.00.

No. 9. 1 cent, newspaper wrappers, $11.20.

If ordered in amounts of 500 or more, a special request to return if not delivered will be printed free of charge.

The 2d quality is invariably cream, and the 3d quality a pale blue.

Single envelopes and wrappers, or quantities, can be purchased from the stamp clerk.

STAMPS CUT FROM STAMPED ENVELOPES.

Stamps cut from stamped envelopes lose their legal value and can not be used to prepay postage. The use of such stamps is punishable by a fine of fifty dollars.

The postage on stamped envelopes spoiled in directing will be refunded at the stamp window, provided they never have passed through the mails.

PUBLIC BUILDINGS, HALLS, &c.

Abbett's Building—31 to 35 Virginia ave.

Ætna Building—East side Pennsylvania north of Washington.

Bacon's Block—122 Fort Wayne ave.

THE PEOPLE'S NEWSPAPER.

The Indianapolis News.

32 E. MARKET ST., INDIANAPOLIS.

THE CHEAPEST AND BEST DAILY NEWSPAPER IN THE WEST.

INDEPENDENT IN POLITICS,
FRESH AND WIDE AWAKE IN ITS NEWS,
SPICY IN ITS ITEMS,
RELIABLE IN ITS MARKETS.

A Valuable Advertising Medium!

The News has the largest circulation of any daily paper in the State of Indiana. In addition to Indianapolis, where it is read more than all the other dailies combined, it is taken in all the towns and villages of Central Indiana, tributary to the city. The News is in its ninth year, and is widely known as an independent journal, and one of the most successful papers in the West. It is read by all classes, and by reason of its price reaches a large number who take no other paper.

Terms for advertising can be had from any responsible advertising agent, or upon application to the publisher.

$1.00 **$1.00**

THE

Illinois State Gazetteer

And Business Directory

(JUST ISSUED.)

This Volume contains a full and accurate BUSINESS DIRECTORY OF EVERY CITY, TOWN AND VILLAGE IN THE ENTIRE STATE as well as the names and addresses of Mill Owners, Country Merchants, Professional Men, etc., who are not located in villages—a comprehensive sketch of each place, specifying its precise location, leading business interests, and character of surrounding country. It also comprises lists of State and County Officers, Census Statistics, times of holding Court in the several circuits, names of the Postmasters, Postoffices, Express and Telegraph Offices of the State, together with a list of Notaries Public, Justices of the Peace, Constables and Commissioners of Deeds, arranged alphabetically by Counties and Townships, giving the name, postoffice address and date of expiration of term in each case, and much other information useful to all classes of business and professional men. A voluminous CLASSIFIED DIRECTORY, comprising SIXTY THOUSAND NAMES, and lists of all trades, professions and pursuits in the State, wherein the name and postoffice address of every person in each line of business can be readily found, is an important feature of this publication.

The vast amount of business data which this volume contains is so arranged that the information sought for can be obtained with the least trouble.

Receiver.

JNO. W. BROWN,
Gen. Pass. and Ticket Agt.

INDIANAPOLIS, IND.

$500.00 REWARD!

The public are informed that on the 16th day of last month, a gentleman, accompanied by a lady, entered the ticket office of the MISSOURI, KANSAS & TEXAS R'Y at HANNIBAL, MO., and purchased of the ticket agent two first-class tickets, reading from Hannibal, Mo., to DALLAS, TEXAS. The party also inquired if there was a Sleeping Car running direct through. The ticket agent informed him that there was, and that it would leave in a few moments. The party then asked if the Sleeping Car passed through DENISON and SHERMAN, TEXAS. The ticket agent answered that it did, and was just about to hand the party a map and time table of the famous INDIAN TERRITORY ROUTE TO TEXAS, when the lady broke out, "see here, mister ticket agent, I have heard and I have read a great deal about this MISSOURI, KANSAS & TEXAS R'Y, and the B. I. T., and I want you to tell me the truth before we take that train. Is it true that there is only one railroad in the United States that passes through the B. I. T., and is it true that the name of that road is the M. K. & T., and is it true that everybody takes it, and that it ENTERS TEXAS AT DENISON?" "Madam," says the ticket agent, "I am proud to say it is all true, the M., K. & T. R'Y is the only line that enters Texas at DENISON, and the only line running SLEEPING CARS to SHERMAN, TEXAS, and—" just then the bell rang; the parties made haste to the train, which was in a moment whirling on its way to TEXAS, and the far-famed INDIAN TERRITORY, while the HANNIBAL ticket agent walked the floor of the M., K. & T. TICKET OFFICE, racking his brain, trying to make out what "she" meant by "B. I. T." He never stopped to think that every day in the week he was asked from 200 to 300 times, "give me a ticket to DALLAS, or FORT WORTH, or DENISON, or HOUSTON, through the BEAUTIFUL INDIAN TERRITORY, which last three words the lady abbreviated. Reader, if you are going to TEXAS, try the route through HANNIBAL, MO., and call for your ticket by way of the "B. I. T." It is the PANORAMIC ROUTE.

T. W. TEASDALE,
Ass't General Passenger Agent.

JAS. D. BROWN,
General Passenger Agent.

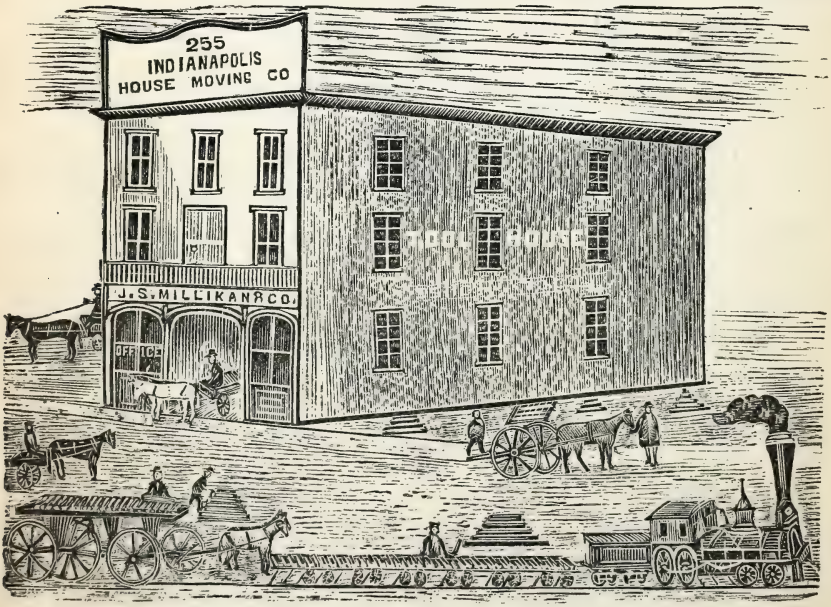
INDIANAPOLIS HOUSE MOVING COMPANY,

John S. Millikan & Co.,

255 S. TENNESSEE STREET.



We desire to inform the public that we are prepared to Raise, Lower or Move Brick, Stone and Frame Buildings of any size, to any part of the city or country. Having had seventeen years experience in the businesss, we feel justified in claiming advantages over all others in the same business. We raise and lower floors, take out walls, etc. We also move safes and heavy machinery. First-class references furnished on application.
